WEDC WELCOMES NEW BOARD MEMBER

Windsor, ON – Angela Snary, a Windsor-Essex entrepreneur, is the newest member of the WindsorEssex Development Commission Board of Directors.

Snary is owner of Avid Quality Group Inc., a mobile measurement services provider located in Windsor. Working with all aspects of the manufacturing process from design to final product, her company helps businesses improve their bottom line by reducing the scrap produced from inefficient systems.

Avid Quality Group has been servicing the automotive sector for the past 10 years and now services clients in the power and aerospace industries. The company has also expanded into the United States and Mexico.

“I am delighted to be a part of the WEDC board and feel I can bring a different expertise to the table,” said Snary. “The automotive sector is changing, but I believe the Windsor-Essex area can continue to be an important player in the industry.”

Snary moved to Windsor-Essex in 1994 to take a post in the Games Department of Casino Windsor, becoming the youngest member to be promoted to the Game Security Team.

Her business successes earned her a Biz X Oscar for “Outstanding New Business, 2004,” industry standard (ISO 9001) certification in 2000 and 2004, and ISO:17025 compliancy in 2008.

Snary’s community involvement includes volunteer work for the Canadian Cancer Society, where she sits as Chair of the Relay for Life event in Windsor. She recently represented Canada as part of a delegation to the American Cancer Society Summit.

“As a cancer survivor, I am a cancer fighter and will advocate for people living with this disease until it is eradicated,” Snary said. “I also enjoy spending time with family and friends, and playing the piano and hockey.”

WEDC Board Chairman, Remo Mancini, says Snary brings an added dimension to the Board.

“We welcome the expertise Angela Snary brings to our Board, and her experience with international clients and businesses will be a tremendous advantage to us,” Mancini said.
