CROSSING THE BORDER: QUICK TIPS FOR BUSINESS TRAVELERS .................... 33

This is not a legal document, nor does it provide legal advice. This document has no affiliation with the Government of Canada, the Department of Homeland Security, Canada Border Services Agency, or Customs and Border Patrol. This document does not mandate or override any decisions made by the previously mentioned corporations or their employees. We are not responsible for any decisions made (medical or otherwise) based on the information in this document.
SECTION 1: INTRODUCTION

Not unlike the rest of the economy, the manufacturing sector has been hit hard by the COVID-19 pandemic. While the manufacturing sector has been deemed an essential workplace\(^1\) since the outbreak, the sector continues to face a number of challenges with the economy opening up. A key area concern is crossing the border. On March 21, 2020, the Governments of Canada and the USA instituted a temporary 30-day restriction on all non-essential travel at the Canada-U.S. border. The ban on non-essential travel has since been extended to August 21, 2020 and will likely be extended beyond that date. Thus, it is important that border authorities and industrial organizations within Canada and the USA work together to continue to facilitate bi-national trade, including the movement of business travellers that help support our integrated supply chain.

Many manufacturing companies in Canada are closely integrated into a supply chain that transcends the Canadian-US border. Passenger and Commercial vehicles want their border crossing to go smoothly and with fewer delays. The best way to ensure this happens is to know what to expect and be prepared. Whether you are returning home to Canada or entering the USA, this document will provide helpful tips and tools to navigate your trip across the border. This document is intended to serve as an evergreen document to inform the customs security process during COVID-19.

---

\(^1\)Public Safety Canada has developed a set of functions deemed essential in the context of the COVID-19 pandemic to help provinces/territories, Indigenous communities, and municipalities protect their communities while maintaining the reliable operation of critical infrastructure services and functions to ensure the health, safety, and economic well-being of the population. These services and functions can also help the private sector self-identify as essential. Public Safety Canada identified ten key sectors that have workers performing duties in an essential service or function, they are: Energy and Utilities; Information and Communication Technologies; Finance; Health; Food; Water; Transportation; Safety; Government; and Manufacturing.
SECTION 2: CROSSING THE BORDER - DOCUMENTATION

2.1 Documentation to Bring

- Passport
- Essential Worker Letter (Please see ANNEX A for a template letter. Please select the letter that best corresponds to your situation. Once completed, the letter signals to the Border Services Officers the business traveller’s ability to move freely through the border and should be presented when requested.)
- For travel to/returning to Canada, it is recommended that business travellers keep a copy of the Canadian Government’s List of Acts and Regulations on hand should it be required for clarification purposes. The exact paragraph needed will be found under “Group Exemption” but it is recommended that the entire document be on hand. (APPENDIX 1.5) https://www.canada.ca/en/public-health/corporate/mandate/about-agency/acts-regulations/list-acts-regulations.html

2.2 Additional Information:

- All individuals crossing the border should consider keeping up to date with COVID-19 related issues, including jurisdictional curfews and/or lockdowns.
- If possible, employees should have available a copy of building COVID-19 protocols issued by the home company and the customer’s company. These documents may be requested by the Border Services Officers (CBP and CBSA).
- When speaking to a Border Services officer (CBP and CBSA), it will be important to communicate that the purpose of your travel is essential. This is where the Essential Worker Letter will help to communicate the purpose of your trip and the essential nature of the trip. In brief, both Canada and the USA have deemed trade and the movement of people within the manufacturing sector to be essential travel.
- As of mid-April, CBSA officers began enforcing the order by Public Health Agency of Canada requiring that persons that are exempt from mandatory quarantine are still required to wear an appropriate mask or face covering upon entry into Canada, and that all

---

2For Canada, please refer to Canada’s National Strategy for Critical Infrastructure; for USA, please refer to the Presidential Policy Directive -- Critical Infrastructure Security and Resilience (PPD-21)
travellers arriving in Canada will be required to wear a non-medical mask or face covering to proceed to their final destination within Canada to mitigate the potential spread of COVID-19.

- While it is not yet necessary, should you have been recently tested for COVID-19, you may want to have your results on hand.
- Be courteous and respectful at all times.

**NOTE:** It may be beneficial to Call CBSA / CBP before attempting to cross the border. However, the final decision for entry / refusal rests with the border official at the port of entry and officers cannot guarantee passage over the phone. You can contact CBSA / CBP at:

- CBP: Locate phone numbers for the relevant US ports of entry that will be used here: [https://www.cbp.gov/contact](https://www.cbp.gov/contact)
- CBSA: Within Canada 1-800-461-9999 (hotline)

**NOTE:** The Public Health Agency of Canada (PHAC) gained increased powers to ask for personal information, at the Canada-U.S. border through an Order in Council (OIC) on June 29. CBSA has stated that PHAC officials, like CBSA officers, are not restricted to any specific questioning and that questions from public health officials at the border are solely intended to identify the potential public health risk and how it could be best managed. As with any border crossing, drivers can still expect to be questioned about their recent travel, whether they are symptomatic, or have recently come into contact with someone who has contracted the virus. Essential workers crossing the border could be asked to provide personal information, such as their contact info, to public health officials. Additional questioning can be expected when entering Canada from the United States until August 31, which is the date the OIC is repealed.
SECTION 3: CROSSING THE BORDER - TIPS FOR SAFE BUSINESS TRAVEL

3.1: Tips for the Business traveller while away from home (Day Trip)
Do NOT make ANY unessential stops while in the United States. Any travel that can be deemed non-essential is subject to 14-day quarantine. Thus, all employees should:

- Travel in a safe reliable car
- Ensure one has enough gas to transport to and from work
- Bring a lunch unless there is food available at the worksite
- Do NOT stop anywhere besides the worksite
- Try to limit the number of people crossing the border
- There should be NO more than 1 person occupying the car
- Wear a mask while visiting customer
- Attempt to limit the frequency of face-to-face contact (minimum of 2m distance)
- If possible, keep all document sharing electronic
- Attempt to limit casual (social) interactions that normally occur at work
- Do not report to work if yourself or a member of your household is sick
- Try and take breaks away from large groups
- Practice cough/sneezing etiquette (covering mouth, away from co-workers, using one’s sleeve, etc.)
- Carry hand sanitizer and frequently wash hands
- Wash or sanitize hands after making or receiving deliveries.
- Bring sanitized wipes (if they are not provided) and clean all workstations
- Do NOT touch your face
- Where possible, wear gloves when interacting with high contact areas. Do not touch your face with gloved hands. Take care when removing gloves. Ensure you wash your hands after removing them
- Wash your clothes as soon as you get home
- If possible, work behind barriers (plexiglass, etc.)
- Be mindful of high touch areas and conduct regular cleaning in the plant and in the offices
  - If cleaning cannot be done ensure hands are disinfected after contact.

High contact areas include but are not limited to:

- Door handles
- Lights
- Bathrooms
- Community Office Supplies (Copiers, Pens, Etc.)
- Service counters
- Card payment machines
- Break rooms
3.2 Tips for the Business traveller while away from home (Overnight or Multi-Day Trips)

Business travellers that are taking overnight or multiday trips should follow the tips referenced in section 3.1 with the exception of not stopping anywhere but the workplace. The business traveller should still ensure that no unnecessary risks are taken. If the border officer believes that non-essential activities occurred during the trip the employee can be subject to quarantine.

Additional Tips for Overnight / Multi-day Business Travelers:

- Keep track of your daily schedule and stops. This will help ensure the Border Officer knows that no unnecessary risks were taken
- If possible, have food / supplies delivered to your place of residence
- Try to limit human contact both at and outside of work

3.3: Considerations for safe interactions with Border Services Officers:

- Avoid handling cash and paperwork, directly, use medical gloves, if possible and wash hands immediately after completing your task
- Business travellers should avoid placing their Identification in their mouth while pulling up the primary inspection lane to hand to a Border Services Officer
- When travelling, ensure wipes and sanitizers are available on-hand.
- As per Public Health Agency of Canada requirements, persons that are exempt from mandatory quarantine are still required to wear an appropriate mask or face covering upon entry into Canada, and that all travellers arriving in Canada are required to wear a non-medical mask or face covering

3.4: What Border Operators (Bridge and Tunnel Operators) Are Doing to Mitigate Covid-19 Concerns:

- Modifying shift schedules for operations staff (toll attendants and janitorial) to minimize overlaps and internal contact between staff
- Removing lane / booth rotations within single shifts for toll attendants
- Increased sanitization of all operational areas for staff, including modifying procurement practices to use stronger cleansing products
- Implementing cashless transactions for passenger vehicles to reduce probability of contamination for drivers and officers
- Duty-Free stores remaining open (Ambassador Bridge) 24/7 to provide gas, restrooms, and the ability to purchase products and parking for rest periods
- U.S. bound duty-free store at the Blue Water Bridge remains open which has washroom facilities, coffee shop, fax services and currency exchange

This is not a legal document, nor does it provide legal advice. This document has no affiliation with the Government of Canada, the Department of Homeland Security, Canada Border Services Agency, or Customs and Border Patrol. This document does not mandate or override any decisions made by the previously mentioned corporations or their employees. We are not responsible for any decisions made (medical or otherwise) based on the information in this document.
SECTION 4: WHAT TO EXPECT AT THE BORDER CROSSING

NOTE: In Canada the term quarantine is used. It is synonymous with self-isolate which is the term used in America.

NOTE: depending on the crossing type you may need to pay a toll before or after crossing through the security screening. Consider using a CC at one of the cashless options where limited human contact is offered.

The following section provides a summary of four possible scenarios and what a business traveler is likely to face when crossing.

4.1: A Canadian Business Traveller returning home to Canada
4.2: A Canadian Business Traveller visiting a customer/client in the USA
4.3: A US Business Traveller returning to the USA
4.4: A US Business Traveller visiting a customer/client in Canada

4.1 A Canadian Business Traveller returning home to Canada

Do NOT make any stops between your place of work and the Border

Have documents ready (See section 2) and approach CBSA Officer
See ANNEX A.1(i) and ANNEX A.1(ii)

The CBSA Officer will decide if you have to:

Self-Monitor (This is most likely)

See section 5.1, 5.2, & 5.3

Quarantine

See section 5.1, 5.2, & 5.4
You MUST comply with the Officer's decision

This is not a legal document, nor does it provide legal advice. This document has no affiliation with the Government of Canada, the Department of Homeland Security, Canada Border Services Agency, or Customs and Border Patrol. This document does not mandate or override any decisions made by the previously mentioned corporations or their employees. We are not responsible for any decisions made (medical or otherwise) based on the information in this document.
4.2 A Canadian Business Traveller visiting a customer/client in the USA

Have documents ready (See section 2) and approach CBP Officer
See ANNEX A.1(i) and ANNEX A.1(ii)

If you are let through:

Proceed to place of work (Do NOT make any stops between the Border and your place of work)
Follow the tips given in section 3.1

If you are not let through:

Proceed back to Canada and inform the CBSA Officer that you did not enter the USA

For Canadian residents ONLY CBSA Officers can mandate quarantine NOT CBP Officers

4.3: A US Business Traveller Returning Home to the USA

Do NOT make any stops between your place of work and the Border

Have documents ready (See section 2) and approach CBP Officer
See ANNEX A.2(i) and ANNEX A.2(ii)

The CBP Officer will decide if you have to:

Self-Monitor (This is most likely)

Self-Isolate

See section 5.1, 5.2, & 5.3

See section 5.1, 5.2, & 5.4

You MUST comply with the Officer's decision
4.4: A US Business Traveller visiting a customer/client in Canada

Have documents ready (See section 2) and approach CBSA Officer
See ANNEX A.2(i) and ANNEX A.2(ii)

If you are let through:
- Proceed to place of work (Do NOT make any stops between the Border and your place of work)
- Follow the tips given in section 3.1

If you are not let through:
- Proceed back to the United States and inform the CBP Officer that you did not enter Canada

For American Residents ONLY CBP Officers can mandate self-isolation NOT CBSA Officers

If you are a returning Canadian that has any issue with the decision made by the CBSA office you can further plea your case at: https://www.cbsa-asfc.gc.ca/contact/com-eng.html or email: phac.emergencyorder-decretduragencecovid19.aspc@canada.ca
SECTION 5: RESOURCES TO SELF-MONITOR AND SELF-ISOLATE

While cross-border travellers affiliated with the manufacturing sector are exempt from the 14-day quarantine requirements for business purposes (barring that they meet all of the necessary conditions), once they return to Canada, they should abide by recommendations of local and national public health authorities, including recommendations relating to social distancing.

NOTE: This document may not be reflective of the most up to date medical information available. It is to be used as a quick reference only. For current government regulations and guidelines please visit:

- https://www.michigan.gov/coronavirus/

5.1 Resources needed to self-monitor or quarantine (self-isolate):
- Instructions on how to self-monitor
- A small supply of surgical masks
- Thermometers
- Soap, water, and /or alcohol-based hand sanitizer

5.2 The following steps should be taken if the employee is required to self-monitor:
- Monitor for fever, cough and difficulty breathing
  - Take and write down temperature every day
  - Try not to use medicines that reduce fever (e.g. acetaminophen, ibuprofen, etc.)
    - If these medications are taken temperature should be taken 4 hours after the last dose
  - Monitor for muscle aches, fatigue, sore throat, headache, loss of appetite, chills, runny nose, nausea and vomiting, diarrhea, loss of sense of smell or taste
- Avoid public and crowded spaces
- Try to avoid taking public transit
- Practice physical distancing (minimum of 2m)
- When leaving the house wear a mask
- Stay away from seniors, people with chronic medical conditions, and people who live / work in healthcare facilities
- Frequently clean hands with alcohol-based sanitizer or soap.
- Ensure everyone living in the home takes extra precautions
The essential employee MUST self-monitor until at least 14 days after their last cross-border trip. Notify Employer to allow them to decide if further precautions need to be taken with other staff should symptom warrant a COVID-19 test.

5.3 The following steps should be taken if the employee is required to quarantine (self-isolate):

- Notify Employer to allow them to decide if further precautions need to be taken with other staff
- Immediately proceed home NOT stopping anywhere along the way
- If someone at home is elderly or immunocompromised alternate living arrangements should be made
- Do NOT leave living quarters for any reason besides emergency medical appointments
- Monitor for fever, cough and difficulty breathing
  - Take and write down temperature every day
  - Try not to use medicines that reduce fever (e.g. acetaminophen, ibuprofen, etc.)
    - If these medications are taken temperature should be taken 4 hours after the last dose
  - Monitor for muscle aches, fatigue, sore throat, headache, loss of appetite, chills, runny nose, nausea and vomiting, diarrhea, loss of sense of smell or taste
- Separate from all other household members and pets
- When in common living spaces wear a mask
- Do not share any utensils, dishes, cups, bedding, towels, and other personal items
- Clean and disinfect high touch surfaces daily (phones, remotes, counters, tables, doorknobs, bathrooms, toilets, keyboards, devices, light switches, etc.)
- Frequently clean hands with alcohol-based sanitizer or soap
- Make arrangements to receive essential items (food, medical supplies, etc.)
- Do not have visitors
- Monitor mental health (for help go to https://www.ccohs.ca/products/courses/mh_awareness/)

5.4 What to do if COVID-19 symptoms develop:

- Follow the directive set by public health officials
- Self-isolate immediately (following the same steps as quarantine)
- Inform employer of symptom development
- Inform everyone with whom you have been in close contact with
- If a healthcare professional is needed:
  - Call ahead and warn of COVID-19 Symptoms
- When traveling to/from the hospital / healthcare provider
  - Do NOT use public transit
  - If a driver is needed
    - Arrange a ride with a family member, friend, taxi, or ride share
- Ensure the driver is aware of the situation
- All parties should wear a mask
- Sit in the back seat with the windows open
- If it is a taxi / ride share, record company name and operator number

- **If tested positive:**
  - all people living in the house should self-monitor/self-isolate
  - employer should be informed
  - anyone in close contact with the employee should be informed

If the essential employee is placed under quarantine they MUST continue to quarantine until at least 14 days after last potential contact with COVID-19.

If the essential employee develops symptoms they MUST remain in quarantine until 14 days after the symptoms develop, even if the symptoms go away.

RE: Letter of Invitation for (Name of U.S. Business Traveler) - Business Visitor
(Name of U.S. Company)

Dear Sir/Madam:

I, (Name of Company Exec. & Title), (Name of Company), respectfully submit this Letter of Invitation on behalf of (Insert Name of Business Traveler, Insert Title) with (Insert Name of Company), in support of his/her travel to conduct essential business with my Company (Insert Name of Client /Customer Company in Canada with full address).

(Insert Name of Business Traveler) is expected to visit [Insert Name of Canadian Company] on (Insert Date). (Insert Name of Client/Customer Company) is a client/customer of (Insert Name of your Company) and the visit is necessary because (Insert purpose of visit - refer to Purchase Order, avoid any reference to a sales meetings) (Note: Please ensure Business Traveler has a copy of the Purchase Order).

(Insert Name of Business Traveler) is a U.S. citizen and holds a valid U.S. passport. (Insert Name of Business Traveler) will be returning to the United States of America on (Insert Date). During his/her time in Canada, (Insert Names of Business Traveler) will not be entering the Canadian labor market and all of his/her accommodations and expenses will be covered by the Employer (Insert Name of U.S. Company). Please note that my Company understands the seriousness of COVID-19 and the safety of our employees, our clients and our communities is critically important. To this end, (Insert Name of Business Traveler) has been fully equipped with all necessary personal protection equipment (PPE) and is eligible to travel as per the COVID-19 Guidelines of the Government of Canada, the Department of Homeland Security, and the Center for Disease Control (CDC). Similarly, I am confident that (Insert Name of Business Traveler) will continue to follow safe practices during the visit in a manner that is respectful of my Company’s COVID-19 Guidelines. (Please see attached Company Policies)
**Business Traveler Information:**

Name: 
Date of Birth: 
Title/Position: 
Name of Company: 
Address of Company: 
Mobile Number: 

I respectfully request that (Insert Name of Business Traveler) be admitted into Canada as a Business Traveler for the purposes of (meetings, consultations and after-sales servicing) that requires specialized knowledge essential to the contractual obligations as per the Purchase Order between (Name of your Company) and (Name of Client/Customer Company). During the visit, the point of contact at (Insert Name of Client/Customer Company) is: (Insert Contact’s Name, Title and Mobile Phone Number).

(Insert Name of U.S. Company) and (Insert Name of Canadian Company) are designated as essential businesses in accordance to U.S. and Canadian directives to maintain the manufacturing supply chain and to support trade and commerce between Canada and the USA. This trip is essential to maintain and strengthen the manufacturing supply chain between our two companies.

I greatly appreciate your consideration of this letter of introduction for (Insert Name of Business Traveler) and his/her entry to Canada as a Business Traveler because this trip is essential to support trade between Canada and the United States of America. If you require additional information, please feel free to contact me directly. I can be reached by phone at: (Insert Mobile Number) or via email at (Insert email address).

Sincerely,

Name of Canadian Company Executive

APPENDIX 1.1: BORDER RELATED RESOURCES

- The Canada Border Service Agency’s Border Information Service (BIS) is now accessible 24/7. For the latest and most up to date information related to cross-border travel and COVID-19, please call 1-800-461-9999. More information can be found at https://www.cbsa-asfc.gc.ca/contact/bis-sif-eng.html

- U.S. Customs and Border Protection (CBP) resources related to COVID-19 can be found at https://www.dhs.gov/coronavirus
APPENDIX 1.2: HOW TO SELF-MONITOR

Coronavirus Disease 2019 (COVID-19)

How to self-monitor

Follow the advice that you have received from your healthcare provider. If you have questions, or you start to feel worse, contact your healthcare provider, Telehealth (1-866-797-0000) or your public health unit.

Monitor for symptoms for 14 days after exposure

- Fever
- Cough
- Difficulty breathing

Avoid public spaces

- Avoid crowded public spaces and places where you cannot easily separate yourself from others if you become ill.

What to do if you develop these or any other symptoms

- Self-isolate immediately and contact your public health unit and your health care provider.
- To self-isolate you will need:
  - Instructions on [how to self-isolate](https://www.publichealthontario.ca/)
  - Soap, water and/or alcohol-based hand sanitizer to clean your hands
- When you visit your health care provider, avoid using public transportation such as subways, taxis and shared rides. If unavoidable, wear a mask and keep a two metre distance from others or use the back seat if in a car.

Contact your public health unit:

Learn about the virus

COVID-19 is a new virus. It spreads by respiratory droplets of an infected person to others with whom they have close contact such as people who live in the same household or provide care.

You can also access up to date information on COVID-19 on the Ontario Ministry of Health’s website: [ontario.ca/coronavirus](https://www.ontario.ca/coronavirus)

The information in this document is current as of May 17, 2020

<tbody>
<tr>
<td>Fever</td>
</tr>
<tr>
<td>Cough</td>
</tr>
<tr>
<td>Difficulty Breathing</td>
</tr>
</tbody>
</table>

### Self-Monitoring
You have:
- no symptoms
- a history of possible exposure to the novel coronavirus that causes COVID-19, in the last 14 days

**Self-Monitor** means to:
- monitor yourself for 14 days for one or more symptoms of COVID-19
- go about your day but avoid crowded places and increase your personal space from others, whenever possible

You need to self-monitor if:
- you have reason to believe you have been exposed to a person with COVID-19
- you are in close contact with older adults or medically vulnerable people
- you have been advised to self-monitor for any other reason by your Public Health Authority

If you develop symptoms, isolate yourself from others immediately and contact your Public Health Authority as soon as possible.

### Self-Isolation
You have:
- no symptoms
- a history of possible exposure to the novel coronavirus due to travel outside of Canada or close contact with a person diagnosed with COVID-19

**Self-Isolate** means to:
- stay at home and monitor yourself for symptoms, even if mild, for 14 days
- avoid contact with other people to help prevent the spread of disease in your home and in your community in the event you become symptomatic

You need to self-isolate if:
- you have travelled outside of Canada within the last 14 days
- your Public Health Authority has identified you as a close contact of someone diagnosed with COVID-19

If you develop symptoms, even if mild, stay home, avoid other people and contact your Public Health Authority as soon as possible.

### Isolation
You have:
- symptoms, even if mild
- you have been diagnosed with COVID-19 or are waiting for the results of a lab test for COVID-19

To be **isolated** means to:
- stay at home until your Public Health Authority advises you that you are no longer at risk of spreading the virus to others
- avoid contact with other people to help prevent the spread of disease in your home and in your community, particularly people at high risk of severe illness outcomes such as older adults or medically vulnerable people

You need to isolate if:
- you have been diagnosed with COVID-19
- you are waiting to hear the results of a laboratory test for COVID-19
- you have been advised to isolate at home for any other reason by your Public Health Authority

If your symptoms get worse, immediately contact your healthcare provider or Public Health Authority and follow their instructions.

APPENDIX 1.4: CBP REGULATIONS

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

19 CFR Chapter I

Notification of Temporary Travel Restrictions Applicable to Land Ports of Entry Between the United States and Canada

ACTION: Notification of continuation of temporary travel restrictions.

SUMMARY: This document announces the decision of the Secretary of Homeland Security (Secretary) to continue to temporarily limit the travel of individuals from Canada into the United States at land ports of entry along the United States-Canada border. Such travel will be limited to "essential travel," as further defined in this document.

DATES: These restrictions go into effect at 12 a.m. Eastern Daylight Time (EDT) on June 23, 2020 and will remain in effect until 11:59 p.m. EDT on July 21, 2020.

FOR FURTHER INFORMATION CONTACT: Alyce Medeste, Office of Field Operations, U.S. Customs and Border Protection (CBP) at 202-344-3788.

SUPPLEMENTARY INFORMATION:

Background

On March 24, 2020, DHS published notice of the Secretary's decision to temporarily limit the travel of individuals from Canada into the United States at land ports of entry along the United States-Canada border to "essential travel," as further defined in that document. The document described the developing circumstances regarding the COVID-19 pandemic and stated that, given the outbreak and continued transmission and spread of COVID-19 within the United States and globally, the Secretary had determined that the risk of continued transmission and spread of COVID-19 between the United States and Canada posed a "significant threat to human life or national interests." The Secretary later published a series of notifications

continuing such limitations on travel until 11:59 p.m. EDT on June 22, 2020. The Secretary has continued to monitor and respond to the COVID-19 pandemic. As of June 18, there are over 8.2 million confirmed cases globally, with over 445,000 confirmed deaths. There are over 2.1 million confirmed and probable cases within the United States, over 59,000 confirmed cases in Canada, and over 154,000 confirmed cases in Mexico.

Notice of Action

Given the outbreak and continued transmission and spread of COVID-19 within the United States and globally, the Secretary has determined that the risk of continued transmission and spread of COVID-19 between the United States and Canada poses ongoing "significant threat to human life or national interests." U.S. and Canadian officials have mutually determined that non-essential travel between the United States and Canada poses additional risk of transmission and spread of COVID-19 and places the population of both nations at increased risk of contracting COVID-19. Moreover, given the sustained human-to-human transmission of the virus, returning to previous levels of travel between the two nations places the personnel staffing land ports of entry between the United States and Canada, as well as the individuals traveling through these ports of entry, at increased risk of exposure to COVID-19. Accordingly, and consistent with the authority granted in 19 U.S.C. 1319(b)(1)(C) and (b)(2), I have
determined that land ports of entry along the U.S.-Canada border will continue to suspend normal operations and will only allow processing for entry into the United States of those travelers engaged in “essential travel,” as defined below. Given the definition of “essential travel” below, this temporary alteration in land ports of entry operations should not interrupt legitimate trade between the two nations or disrupt critical supply chains that ensure food, fuel, medicine, and other critical materials reach individuals on both sides of the border.

For purposes of the temporary alteration in certain designated ports of entry operations authorized under 19 U.S.C. 1318(b)(1)(C) and (b)(2), travel through the land ports of entry and ferry terminals along the United States-Canada border shall be limited to “essential travel,” which includes, but is not limited to—

- U.S. citizens and lawful permanent residents returning to the United States;
- Individuals traveling for medical purposes (e.g., to receive medical treatment in the United States);
- Individuals traveling to attend educational institutions;
- Individuals traveling to work in the United States (e.g., individuals working in the farming or agriculture industry who must travel between the United States and Canada in furtherance of such work);
- Individuals traveling for emergency response and public health purposes (e.g., government officials or emergency responders entering the United States to support federal, state, local, tribal, or territorial government efforts to respond to COVID-19 or other emergencies);
- Individuals engaged in lawful cross-border trade (e.g., truck drivers supporting the movement of cargo between the United States and Canada);
- Individuals engaged in official government travel or diplomatic travel;
- Members of the U.S. Armed Forces, and the spouses and children of members of the U.S. Armed Forces, returning to the United States; and
- Individuals engaged in military-related travel or operations.

The following travel does not fall within the definition of “essential travel” for purposes of this Notification—

- Individuals traveling for tourism purposes (e.g., sightseeing, recreation, gambling, or attending cultural events).

At this time, this Notification does not apply to air, freight rail, or sea travel between the United States and Canada, but does apply to passenger rail, passenger ferry travel, and pleasure boat travel between the United States and Canada. These restrictions are temporary in nature and shall remain in effect until 11:59 p.m. EDT on July 21, 2020. This Notification may be amended or rescinded prior to that time, based on circumstances associated with the specific threat.

The Commissioner of U.S. Customs and Border Protection (CBP) is hereby directed to prepare and distribute appropriate guidance to CBP personnel on the continued implementation of the temporary measures set forth in this Notification. The CBP Commissioner may determine that other forms of travel, such as travel in furtherance of economic stability or social order, constitute “essential travel” under this Notification. Further, the CBP Commissioner may, on an individualized basis and for humanitarian reasons or for other purposes in the national interest, permit the processing of travelers to the United States not engaged in “essential travel.”

The Acting Secretary of Homeland Security, Chad F. Wolf, having reviewed and approved this document, is delegating the authority to electronically sign this document to Chad R. Mizelle, who is the Senior Official Performing the Duties of the General Counsel for DHS, for purposes of publication in the Federal Register.

Chad R. Mizelle,

Notification of Temporary Travel Restrictions Applicable to Land Ports of Entry and Ferries Service Between the United States and Mexico

ACTION: Notification of continuation of temporary travel restrictions.

SUMMARY: This document announces the decision of the Secretary of Homeland Security (Secretary) to continue to temporarily limit the travel of individuals from Mexico into the United States at land ports of entry along the United States-Mexico border. Such travel will be limited to “essential travel,” as further defined in this document.

DATES: These restrictions go into effect at 12 a.m. Eastern Daylight Time (EDT) on June 23, 2020 and will remain in effect until 11:59 p.m. EDT on July 21, 2020.

FOR FURTHER INFORMATION CONTACT: Alyce Modesto, Office of Field Operations, U.S. Customs and Border Protection (CBP) at 202-344-3788.

SUPPLEMENTARY INFORMATION:

Background

On March 24, 2020, DHS published notice of the Secretary’s decision to temporarily limit the travel of individuals from Mexico into the United States at land ports of entry along the United States-Mexico border to “essential travel,” as further defined in that document. The document described the developing circumstances regarding the COVID-19 pandemic and stated that, given the outbreak and continued transmission and spread of COVID-19 within the United States and globally, the Secretary had determined that the risk of continued transmission and spread of COVID-19 within the United States and Mexico posed a “specific threat to human life or national interests.” The Secretary later published a series of notifications.

85 FR 16547 (Mar. 24, 2020). That same day, DHS also published notice of the Secretary’s decision to temporarily limit the travel of individuals from Canada into the United States at land ports of entry along the United States-Canada border to “essential travel,” as further defined in that document. 85 FR 16548 (Mar. 24, 2020).
APPENDIX 1.5: QUARANTINE ACT

Quarantine Act
The purpose of this Act is to protect public health by taking comprehensive measures to prevent the introduction and spread of communicable diseases. The Act authorizes the Minister of Health to establish quarantine stations and quarantine facilities anywhere in Canada, and to designate various officers including quarantine officers, environmental health officers, and screening officers. The Act authorizes measures that can be taken in respect of international travellers, or other persons at an entry or departure point, who have or might have a communicable disease (one that poses a risk of significant harm to public health). It also authorizes measures that can be taken in respect of conveyances arriving in or departing from Canada, and cargo on those conveyances, which could be the source of a communicable disease.

COVID-19 Emergency Orders in Council (OIC) pursuant to section 58 of the Quarantine Act in effect:

- OIC 10 - Minimizing the Risk of Exposure to COVID-19 in Canada Order (Mandatory Isolation) No. 2

Group Exemptions under 6(e) of the order
Effective June 11, 2020, the Chief Public Health Officer of Canada amended the group exemptions for technicians to include the installation of essential equipment to support critical infrastructure. While an exemption from quarantine may be granted under the federal Mandatory Isolation Order, you are encouraged to consult the provincial and territorial resources for any additional restrictions regarding mandatory quarantine, as stricter measures may apply.

Pursuant to paragraph 6(e) of the Minimizing the Risk of Exposure to COVID-19 in Canada Order (Mandatory Isolation), No. 2, issued pursuant to section 58 of the Quarantine Act, the Chief Public Health Officer may determine a class of persons who provide an essential service while in Canada.

As determined by the Chief Public Health Officer, at this time, the following class of persons are exempt:
- Persons in the trade or transportation sector who are important for the movement of goods or people, including truck drivers and crew members on any aircraft, shipping vessel or train, and that cross the border while performing their duties or for the purpose of performing their duties;
- Persons who must cross the border regularly to go to their normal place of employment, including critical infrastructure workers (Energy and Utilities, Information and Communication Technologies, Finance, Health, Food, Water, Transportation, Safety, Government and Manufacturing), provided they do not directly care for persons 65 years of age or older within the first 14 days after their entry to Canada;
- Technicians or specialists specified by a government, manufacturer, or company, as required to install, inspect, maintain or repair equipment necessary to support critical infrastructure (Energy and Utilities, Information and Communication Technologies, Finance, Health, Food, Water, Transportation, Safety, Government and Manufacturing); and
- Persons, including a captain, deckhand, observer, inspector, scientist, veterinarian and any other person supporting commercial or research open water aquaculture-related activities, who enter Canada for the purpose of carrying out aquaculture-related activities, including fishing, transporting fish to and from the aquaculture facility, treating fish for pests or pathogens, repairs, provisioning of aquaculture-related vessels or aquaculture facilities or exchange of crew and who proceed directly to an open water facility or vessel upon entry to Canada.

Upon arriving at a point of entry into Canada, those who fall under the above categories, will not be prohibited from entering the country, provided documentation related to the essential service is presented and verified by a Canada Border Service Agency Screening Officer.
Please be aware that the mandatory 14-day isolation period for asymptomatic people does not apply to those who meet the exemption criteria. Persons exempt from mandatory quarantine are still required to wear an appropriate mask or face covering upon entry into Canada and while in transit, and should otherwise respect the intent of the Order to minimize the spread of COVID-19 in Canada.

Should any person - with no exception - arrive at the border exhibiting symptoms of COVID-19, they are subject to the isolation orders issued by a Quarantine Officer under the Quarantine Act. This could include home isolation, a quarantine facility chosen by the Chief Public Health Officer of Canada or even immediate referral to a health care facility. Symptomatic persons arriving at the Canadian land border will not be permitted entry unless they have the right to access Canadian health care. This is in the best interest of both the traveller and all other Canadians.
Crossing the Border: Quick Tips for Business Travelers

The following is an abridged summary of the key tips that any Cross-Border Business Traveler should have handy. It can be used as a reference for employees but does NOT contain all the information needed for safe travel.

Crossing the Border – Documentation

Documentation to Bring:

- Passport
- Essential Workers Letter
- CBP Statement on Essential Travel
- Government of Canada’s List of Acts and Regulations

Additional Information:

- Keep up to date with all COVID-19 curfews and lockdowns
- Have a copy of COVID-19 building protocols
- Emphasize that the purpose of trip is essential
- A mask MUST be worn upon entry to Canada and the United States

Crossing the Border - Tips for Safe Business Travel

Do NOT make ANY unessential stops while in the United States. Any travel that can be deemed non-essential is subject to 14-day quarantine.

- Travel in a safe reliable car with enough gas to transport to and from work
- Wear a mask and limit face to face contact
- If possible, keep all document sharing electronic
- Do NOT report to work if you or a member of your household is sick
- Carry hand sanitizer and frequently wash hands
- Bring sanitized wipes (if not provided) and wipe down all workstations
- Do NOT touch your face
- Be mindful of high touch areas and conduct regular cleaning
- Where possible, wear gloves when interacting with high contact areas. Do not touch your face with gloved hands. Take care when removing gloves. Ensure you wash your hands after removing them.
- Wash your clothes as soon as you get home
- Practice cough/sneezing etiquette (covering mouth, away from co-workers, using one’s sleeve, etc.)

Considerations for Safe Interactions with Border Services Officers:

- Avoid handling cash and paperwork, directly, use medical gloves, if possible and wash hands immediately after completing your task
- Business travellers should avoid placing their Identification in their mouth while pulling up the primary inspection lane to hand to a Border Services Officer
- When travelling, ensure wipes and sanitizers are available on-hand if possible
