HGS CHOOSES WINDSOR!

Windsor, Ontario Canada –Tuesday, September 23, 2014 - Last fall HGS held a very successful job fair and today we are excited to announce that they have selected Windsor as their next location for one of their contact centre.

HGS will move very quickly to determine their location and are taking steps towards recruitment of a minimum of 400 people for their activities here.

“Our market assessment of the City of Windsor last fall was a qualified success on all levels with us receiving over 1600 highly skilled applications. We quickly realized that the residents of Windsor will be loyal and high performing ambassadors for us as their employer. The partnerships forged with city leaders in the Mayor’s office and the office of Economic Development further cemented our decision to choose Windsor as the 11th location for HGS Canada. We are excited to begin reconnecting with applicants in the very near future as we ramp what is sure to be HGS Canada’s next premier location.” said **Kathy Follett-Lloyd, VP, Human Resources, HGS Canada.**

“HGS will be a welcomed addition to the City of Windsor. We have been working closely with HGS and I am pleased to welcome their respected customer service centre brand to the city,” said **Mayor Eddie Francis.**

“We have been working for some time now with HGS and we are delighted they will be setting up shop in Windsor...Welcome,” said **Sandra Pupatello, CEO of the WindsorEssex Economic Development Corporation.**
