

Bio

Ian Khan is a two times TEDx Speaker & Technology Author.

Author of Cloud Wars, The Internet of Things (IoT) A Concise Introduction, The Internet of Things & the Future of Innovation, Make Me Like You, 21 Steps & Get Ahead, Ian is an emerging Technology & Business speaker, deeply passionate about helping audiences simplify their understanding of Technology and uncovering more value. His upcoming body of work "Meaningful Conversations" creates a paradigm shift in helping transfer value between people and organizations.

Ian has dedicated the last 20 years evangelizing technologies such as Cloud Computing, Internet of Things, Business Intelligence and Artificial Intelligence & Technology in general. He is also a frequent contributor to industry publications, including McGraw Hill Education, Huffington Post, Techvibes and more. As a keynote speaker, he engages with hundreds of attendees and recently been part of Cloud Expo, IoT Expo, GTEC, ATX, BigData TechCon, Cloud Connect, CompTIA, Big Data Expo, and Data4Decisions among others.

Passionate about helping newer generations develop key technology understanding, Ian also works with educational institutions & nonprofit organizations. His recent work includes Chang School (Ryerson University), Schulich School of Business (York University) and others. Ian is also a founding member of IOTAC (Internet of Things Association of Canada), Canada's Only Internet of Things Advocacy group and Nonprofit dedicated at providing a platform & advocacy support for IoT initiatives in Canada.
